Corona nappy obligation

Cover your butt with nappies that are well fitted.
Because the "zombie epidemic" is thus transmitted.

It's about the aerosols from the butt.
And now you really might ask; what?

Do not wear skirts or fart without pants!
Don't give this "evil virus" a chance.

The zombie epidemic aerosols are transmitted by farts.
Protect your friends by wearing a nappy with hearts.

Vaccination is love and masks for above and below.
How to protect yourself properly should everyone know.

Smooth transitions

We are here and not a few.

We already know the true.

Go on telling your lies.

Go on with your disguise.

The lie thus breaks itself down.

The evil thus takes off its crown.

Truth is becoming increasingly strong.

The demise will not last for long.

What are a few years compared to eternity.

Truth in power is new sacred modernity.

The evil and deceitful will go.

And the good and kind will grow.

Many ways but one goal

I walk through an infinite maze.

I can no longer count the days.

Already gone so many wrong roads.

Thus carrying many unnecessary loads.

I have followed many hints in vain.

Yet energy flows through every vein.

I will some day find the real way out!

Because that is what this is all about.

Nothing and nobody will prevent this!

The real path and faith - I defend this.

About losers and kings

The majority will simply bow down.
They'd accept the orders of every clown.

They don't know an own will or opinion.
They behave like a servile little minion.

They're the ones who want to be vaccinated.
From those cheeky lies they are fascinated.

They think vaccination is health and love.
And defend this lie with a boxing glove.

Evil propaganda shows its full force.
And heretically ignores the real source.

The majority gambled away their lives.
They'd even defend their ruin with knives.

Avoid the big cities and live apart.
Prepare yourself for a new start.

The nature will protect and hide you.
And your inner leader will guide you.

You won't lack for anything.
For you are going to be king!

New health order

Those who can think clearly can hardly believe it.

A new dictatorship in disguise - they retrieve it.

In the name of health, everything is authorised.

And ignorant people will be simply traumatised.

They only do it for your own protection!

Even if positive tests are not an infection.

People who are not reasonable are sent to camps.

Such situations are remembered only by gramps.

They vaccinate like mad but they have no clue.

It will change your DNA and lower your IQ.

You will be connected to the satanic cloud.

On your transhumanistic body you can be proud.

The latest transhumanistic technology.

For damages you will not get an apology.

People are harmed in the name of health.
And the real reasons are hidden by stealth.

It will happen

I'm still sitting in my room.
And watch this final doom.

I know I need to get out of here.
It's the call of nature that I hear.

Leave everything and just go.
To enjoy a much bigger show.

This world is your domain.
Go and begin your reign.

Soon the rapture begins.
To wash away all sins.

You have nothing to fear!
The hour of awakening is near.

Unconditional love

Pure love is always unconditional,
in the past it was once traditional.

It makes no demands or stipulations.
It was once the basis of all relations.

It is fearless against all bad things.
It is able to spread its mighty wings.

You not only feel it, you really live it.
Broken hearts and souls - it revives it.

All fictitious boundaries are blurred.
And healing energies are transferred.

Harmonious oscillations

It's a satanic order that will soon fall.

At full throttle it crashes into the wall.

Unconscious decisions lead to the end.

Unlimited power is what they pretend.

But the change of time is now imminent.

Melodies resound from a sacred instrument.

Enchanting frequencies are played.

And negative vibrations will fade.

The world is now being transformed.

And the evil order is being stormed.

The change is becoming a true challenge.

But this is how everything will be balanced.

Self-empowerment

You're truly great from the toe to head.
Wherever you go you've always been led.

Every step you consider as mistake,
happened only to help you to awake.

Now open your eyes and start to see!
For your luck only you hold the key!

Your consciousness is the steering wheel.
It is able to destroy but also to heal.

You are the one who decides where it goes.
Your redemption is already very close.

Let your new journey now begin!
Because you are only here to win!

Paths that cross

Countless people now stand up.

Millions of lights now light up.

The earth trembles with delight.

About the greatest change I write.

The dark forces are now retreating.

The virtuous enjoy a grand meeting.

The bright ones are simply more.

And they are already at the door.

Nothing will tame or stop the masses.

A new cohesion of all classes.

For the first time everyone works together.

In order to finally beat the bad weather.

Contemporary history

I report from very crazy times.
Charity covers nowadays crimes.

Ignorance and confusion everywhere.
In the economy nobody plays fair.

One is forced to live at the expense of others.
One must constantly betray one's own brothers.

Whoever has enough money is right.
The poor man always loses his fight.

Ancient philanthropy is completely twisted.
And those who speak the truth will be listed.

We are on the brink of the greatest genocide.
But this time it will have effects nationwide.

Willing and ignorant biorobots obey,
until the bitter end they will stay.

But there is no going back from this stage.
These are the birth pangs of the new age.

The modified word

At the Council of Nicaea,
the Pope showed his Claw.

He falsified and replaced holy verses,
and thereby he did not get nervous.

Vegetarians became carnivores.
And so they started sacred wars.

The true word was heavily falsified.
And the real source was denied.

They adapted everything to their own needs.
And so they covered up cruel deeds.

But now the time of truth begins.
And so we uncover ancient sins.

Contradictions are uncovered.
And true faith is recovered.

Change of existence

You feel insecure about the times?
Let me support you with a few rhymes!

You are not alone, we're the majority!
Together we are the true authority!

We are one and yet each one is unique,
and together we're everything but weak!

The eternal moment gives us power!
It will blossom like a beautiful flower.

The dandelion grows through concrete.
And thereby it breaks up the street.

The long-awaited change will be historic!
You have every reason to feel euphoric.

It seems like everything is going to break,
but everything is happening for us to awake.

The day we burst forth into the sunlight,
comes with the awareness of our true might.

Verses for health

Sometimes poems write themselves automatically.

Verses just creates completely spontaneously.

There are times when I write so much,
each line can then trigger a deep touch.

But lack of oxygen and too much radiation,
can cause a strong and long stagnation.

Poisons and distractions also do their job.
and can lead in the end to a big flop.

Therefore I detox my own body every day,
and chlorine dioxide escorts me on my way.

I provide myself with the necessary nourishment.
In this way I achieve a complete refurbishment.

Zeolite removes the old waste toxins.
Thus I extend daily my health options.

He who eliminates waste from his own organism,
can also cure diseases like cancer and autism.

Modern diseases are caused by toxic substances.

Renounce them and use all possible chances!

Modern medical treatment

Do not let anything inject into your veins!
For it only causes mental and physical pains.

How does the doctor lose his bread?
Only through health or many dead.

Only through illness they can earn a good living.
Therefore, poisons are the only thing they're giving.

So you'll have to step into self-responsibility!
To be able to restore your health stability.

Pay attention to everything you eat and consume.
And do not run further into your own doom.

Everything you have been taught is useless today.
So question everything and go your own way!

The one who wakes up

One who leads by setting a good example.

One who does not care about any scandal.

This one will be followed by the chosen ones.

Their actions and words are like sacred guns.

And when all rises up, the rest becomes active.

For the holy change will then be attractive.

The old chains will be shattered.

And the evil will be scattered.

We get to the root of the evil matter.

So that the good can make it better.

A new teacher

I wait for the moment when I leave.
Until that day I will grow in belief.

The day when my new life begins.
The day I leave behind all my sins.

I want something new, something better.
That's why I'm writing this poetry letter.

Old things are renewed and replaced.
It fades away the targets I've chased.

On the horizon new values appear.
For my hazy past falls a last tear.

I've had the experience of enlightenment,
awakening is therefore my holy entitlement.

Today nothing seems still wrong or strange.
I've been heading always for that change.

Now my final goal is within reach.
And when I've reached it I'll teach.

Understanding terminology

Ascension is an old term,
but what is in its germ?

It has nothing to do with a trip!
But that's just my personal tip.

It's difficult to surpass ridiculousness,
to achieve it with any meticulousness.

When you leave the mundane,
and overcome illusionary pain.

When you behold the divine,
and discover the inner shrine.

When the theater play will end.
And you can no longer bend.

But how could one explain it?
If you can't simply obtain it?

There is no real proof or award.
When the unknown was explored.

Hear also the other side

Audiatur et altera pars - is really important!

Because otherwise the truth is shortened.

Only those who acknowledge both sides can judge.

With contradictions you must come into touch.

Those who observe carefully will discover unity.

And they will not only recognise an opportunity.

Whoever realises the contrasts will understand,

how both sides are controlled and planned.

As times change, the sides become evident.

Obviously like a glasshouse standing elephant.

Those who recognise the signs of the times will see.

That everyone holds in his hand his own magic key.

Personal transition

Your own truth is what you have to discover,
in order to break through that cloud cover.

No one can walk in your shoes!
It's up to you the way you choose.

No one has followed your way for a week!
Therefore your view of things is unique!

You can try to teach it and explain it.
But it's difficult to grasp and name it.

Just start living your own veracity!
And explore all of your capacity.

The changing times are at hand.
And it truly changes each land.

Break old patterns!

Most people act according to their conditioning.

And very rarely question their positioning.

After all, one has learned these things.

And this from "true scientific kings".

But we all need to question those illusions,
to expose these entrenched delusions.

And we should not ask another truth-broker,
lest we fall for the next practical joker.

Only in you can you find all the answers,
others call such people dream dancers.

Yet we are living the biggest dream right now!
And we are slowly seeing through it somehow.

When we all dream in a conscious way.
We will celebrate our true birthday.

Just use your own mind and learn!
And thus create your inner turn.

Be a spark that lights the tinder.
Spit out the truth like a printer.

Unimaginable how we all have bent.

The next few years will become much harder.
But ultimately we will become much smarter.

Nothing like this should ever happen again.
Therefore, we're working on the end of the reign.

Self-governance is what we teach.
And in the end, that's what we'll reach.

Each of us must be aware of what we desire.

Every verse comes deep from my heart.

What I write witnesses my personal evolution.
In me I have found every needed solution.

The outside world was only a single lie.
I saw it long time ago with my inner eye.

Soon I'll be able to act freely and live.
More and more wisdom is what I'll give.

A goal of which the majority only dreams.
This path and success rests in my genes.

Imagination mixes soon with reality.
The positive change is what I see.

I go out only with the goal in mind.
What I was chasing for I'll find.

And when I have finally found,
I'll live in an eternal compound.

Perverse ingredients

No matter whether it's daughters or sons.
The baby grows in the womb for 9 months.

Until 9 months one can have finally an abortion.
To obtain an important vaccine ingredient portion.

These aborted babies are then being sold.
This business is more profitable than gold.

They are chopped up and processed.
This activity cannot be nicely dressed.

These aborted fetuses are given as vaccines.
Thus, you get injected with foreign genes.

Satanism rises to the highest level.
This is how they pay homage to the d-evil.

This system is doomed and have failed.
Because such crimes cannot be veiled.

We'll register and witness all barbaric crimes.

We'll call out soon the change of times.

Choose your cycle!

Always produce, consume and recycle.
That is our modern economic cycle.

No one questions the madness.
But many feel that sadness.

As a producer you see only digits.
You miss in between connecting bridges.

It can be hard to recognise the humour,
as long as I'm forced to be a consumer.

What is consumed is ultimately recycled.
And everywhere it is as free life titled.

We don't know any other way of life.
Or anything else for which we strive.

Some only realise at the end of their days,
that they have not gone their own ways.

Even their dreams were not their own.
They sold them for becoming a drone.

Considering all this, why should you wait?
Live your own dreams before it's too late!

Increase your knowledge and take the plunge!

Do not be concerned about your daily lunch.

Nature offers everything you need.

But it cannot satisfy all your greed!

How it worked I had no clue.

Colourful pics that you could control.

To reach in the end a certain goal.

Soon turned out to be a beautiful cage.

How much I was fascinated by everything.

But above all I was a game score king.

How quickly I now look for the way out again.

To shatter this once so beloved chain.

No colourful images or numbers can hold me.
